

Disadvantaged Swimmer / Inclusion Policy

The Club supports the premise that swimming should be an inclusive sport and that persons with potential should not be disadvantaged. As such the club will provide support, the purpose of which is to assist those swimmers who might otherwise have to give up the sport through financial hardship.

The support is discretionary. Families receiving financial assistance from the Government or other bodies can apply to the Club Committee, through the Treasurer, for a reduction in the cost of membership and/or training fees. The amount of the reduction is at the discretion of the Club Committee.
